

## HOW TO FIT... **TEE HINGES**

**1.**

Position the strap of the hinges onto the required position of the gate ensuring it is level and mark the fixing holes.

**2.**

Drill pilot holes and fix the straps of the hinges to the gate with screws provided.

**3.**

Place the gate into the opening ensuring there is clearance from the bottom of the gate to the floor throughout the gate opening.

**4.**

Position the leaves of the hinges onto the post and mark fixing holes.

**5.**

Drill pilot holes and fix the hinge to the post with screws provided.
